Physics Colloquium

Summer 2019 Undergraduate Research Fellowship Projects

October 30, 2019
4:00 pm
114 Begeman Hall

Remote Bias Electrostatic Force Microscopy-
Seeing the Invisible
Joseph Tibbs
Senior, BS Physics, BS Biochemistry Major

Quantum Growth of Palladium on MoS2
Skylar Scott
Senior, BS Physics Major

Stochastic Lattice Simulation of the RAD51 Nucleoprotein
Filament Formation on Single-Stranded DNA
Mary Sutton
Senior, BA Physics, BA Biochemistry Major

Analyzing Understanding of Electromagnetism in Workshop Physics
Ernest Toutant III
Senior, BA Physics Teaching Major

Identifying Elemental Composition of Sand Grains with EDX
Gaoyong Wu
Junior, BS Physics Major

Everyone Welcome! Refreshments provided.
